

## DTSAT4 INK

### Specially formulated ink for card printer

The DTSAT4 LED UV curing inks designed for artisJet Proud card printer, provide the best printing results on the different card types and cards substrates, ensuring stability and durability even for mass-production (200 card pieces load / pass).

- ✔ **Vivid and sharp details on cards**  
 Easily recreate images and text by direct propelling ink droplets onto the card surface, printing smaller details in high res.
- ✔ **100% use of ink for cost saving**  
 Enabling printing of 8000+ of M6 card size with only one set of inks.
- ✔ **Highly adhesive impressive prints**  
 Deliver full color graphics with impressive photographic images and stylish finishes for different card needs, initiating a strong bond with the substrate.
- ✔ **Safe and certified inks**  
 artisInk has been proved by RoHS, REACH, CS65, RISC Certificates. Eco-friendly ink, no VOC emissions, safe for all usage, longer shelf life of inks.
- ✔ **Proven anti-discoloration features**  
 Proven high color quality and lasting prints through cross-cut / temperature / humidity color durability tests.
- ✔ **Hassle-free handling & maintenance**  
 Quick and easy to install ink cartridges on card printer, with ink supply levels check to determine ink estimates.

Brand	artisJet	
Manufacturer	Signs Full Joint Tech Co., Ltd.	
Product name	DTSAT4 Ink Cartridges	
Ink quantity	230 ml / cartridge	
Cartridge dimensions	W*D*H	30mm * 378mm * 68mm
Cartridge weight	420 g	
Full package code	4 colors	DTSAT4-230-CMYK
Shelf life	(from production date) 300 days	

Individual cartridges	<span style="color: cyan;">●</span> Cyan	DTSAT4-230-001
	<span style="color: magenta;">●</span> Magenta	DTSAT4-230-002
	<span style="color: yellow;">●</span> Yellow	DTSAT4-230-003
	<span style="color: black;">●</span> Black	DTSAT4-230-004

Printer compatibility    artisJet Proud ID card printer
